**PLANNING APPLICATION B/10/00202 – CHANGE OF USE OF BUILDINGS TO CLASS B8 STORAGE –
FORMER PIG FATTENING UNIT, HARPERS HILL FARM, NAYLAND – TD & AM BUGG**

As you will be well aware the Society has always been opposed to any expansion of the activities of Messrs Bugg within the AONB. We continue to believe that their operations are fundamentally inimicable to both the appearance and tranquility of the Dedham Vale.

However, mindful that this application's almost identical predecessor was allowed on appeal, given the undertaking to maintain the screening planting on the site and on the clear understanding that no creeping storage will be allowed to occur outwith the former Piggery buildings we do not wish to register a formal objection to this application.

David Eking
Planning Secretary, Suffolk
for the Dedham Vale Society
